**Yogesh P. Singh – The Swiss-Indian Logistics Maverick, Founder and Advisor to CFL**

Meet Yogesh "Yogi" P. Singh: co-founder of logistics titans like Cargocare AG, Asiancargocare, and the CFL Crossfreight empire. When he landed in India in the 1970s—a logistics desert—he didn't just see challenges; he saw a blank canvas. With Swiss precision, Punjabi grit, and a laugh that echoes through boardrooms, Yogi pioneered India's supply chain renaissance. A legend who "knows India like his pockets," he's the rare blend of sharp humor, relentless hustle, and visionary grit. From birthing Asiancargocare to mentoring India's next-gen logistics leaders, Yogi doesn't just move cargo—he engineers legacies.

**Promila Singh – Swiss precision for Global Logistics**

If logistics had a superhero, it'd be Promila Singh. Co-founder of CFL Crossfreight Line AG, she's the mastermind who transformed Swiss precision into a supply chain superpower. With a planner's foresight and a tactician's grit, Promila doesn't just manage shipments "she orchestrates symphonies of efficiency." Her mantra? Eliminate risks before they exist.

Under her leadership, CFL's operations are a masterclass in proactive perfection: every team member trained to Swiss-clock standards, every shipment pre-audited for chaos-proof delivery. When disasters strike, they're \*never\* her fault—blame the shipping lines, hurricanes, or fate. But here's the twist: disasters rarely strike.
